

What's New!

## The Word Is Out!

May 7-10th 2014 saw The Ewings Cancer Foundation of Canada attend Canada's largest annual family medicine conference, Primary Care Today, as exhibitors. It was a tremendous success! We were able to connect with family physicians and other health care professionals and delivered our new information pamphlet "What Is Ewing Sarcoma". It opened up discussions about Ewing Sarcoma with the delegates and we were happy to talk to as many of them as possible. Our booth made quite an impression with our colourful scarves and sweet treats! Many doctors were very familiar with Ewing Sarcoma. Perhaps it is not as rare as once thought? Hmmm.

Thank you to ECFC friend and volunteer Carol Hewson and VP Carolyn Bingham for helping out!

You can help us raise awareness by sharing this digital pamphlet to others. We sure would appreciate it. It is our mission to put this pamphlet into the hands of every Family Physician in Canada and other front line health professionals. Early detection is vital!

# Our Heads Are In The Clouds

We are a lucky bunch here at The Ewings Cancer Foundation of Canada. We have an amazing air rally design team lead by Anna Pangrazzi and Paul Hayes. Every year they tirelessly volunteer to design a new air rally route for Rally For The Cure which is our biggest annual fundraiser.

On May 17 2014, Anna is holding an Open House/Seminar for pilots at Buttonville Airport in support of one of her charities, Hope Air. The ECFC will be there, front and center, promoting our Rally For The Cure and enticing pilots to sign up! Some lucky pilot will be winning a prize....a free air rally registration!
